# Editors's Letter

*Hey, you!!*

Welcome to TAMK. This is Provisio and my name's Jasmin. We warmly welcome you all as new students to this more or less new lifestyle and amazing new opportunities and possibilities that are waiting for you around the corner as we speak.

I must say that I'm starting the fall semester quite relieved as everything has come alive again, and it has started to feel less lonely.

I remember how much of a mess my life was last summer. I had a tough situation overall but managed to graduate from high school. I got accepted to TAMK and moved here from Helsinki. Everything felt so new, so strange and a bit scary. I had found myself in a new city, new school and these university people and no one I actually knew. No family in the same city; I was on my own now.

But when I look back, I feel super lucky and the most grateful ever. TAMK is hands down my favorite school I've ever gone to. And trust me when I say, I've been to many. I can already say this after a year of studies, that should say something.

You might be a student having started new in a completely foreign country or city and it can and probably will feel lonely and scary at first, but it won't for long. I can honestly say that you are not walking this path alone, there are tens, if not hundreds of students who are in your position. I was once. But looking at the silver lining can mentally carry you a long way.

*" You've made it this far, so be proud of yourself "*

Partying or even socializing doesn't come naturally to everyone. We at TTO try to take each and every one of you into consideration in the best possible way we can.

Move forward in your own pace. We definitely still encourage you to participate in as many things offered to you because you never know who you'll meet, what you'll experience or learn that can last a lifetime or give you the gratitude or attitude, you wish you had before getting into these things and this stage in your life.

A lot can happen in a year, and this is your first one here. I salute you and support you every step of the way. Now just try to focus on 'here' and 'now' while having your future in mind too. You've made it this far, so be proud of yourself 'cause we are <3 Enough of cheesiness, let's have fun!

Cheers,

*Jasmin Mora*  
*Media Representative*

# Chairperson

Firstly, I want to congratulate you for your study spot as a business student here in Tampere! You are starting an unforgettable and important point in your life and now you are a part of the amazing student community of Tampere. You've earned your spot in the desired student environment, so make the best of these years!

The saying in Finnish about studying being people's favorite time is true, as long as you grab onto the upcoming opportunities and challenges without prejudice. With the new study place, come a lot of other new things that might make you nervous at first.

But it's not worth worrying too much about them, because there are hundreds of new students starting out the same time as you and who are in the same exact position. A new environment, new people and many new opportunities are best to take as enriching, amazing new experiences.

Tampereen tradenomiopiskelijat ry is making sure that you have a lot of things to do also during your free time while also studying. We want to create events for our students and activities that help bring people closer to one another and relax inbetween your studies, and we of course support our students in the world of education policies as well.

Our board exists for our members, so we are always ready to help even with the smallest things! You can find us at our office, at all of our events and just from the school hallways. Come and talk to us whenever if something is concerning you or even if you just want to chat.

See you throughout the autumn and enjoy the time here with your studies!

Jasmiina Ronkainen  
Chairperson

“ See you throughout the autumn and enjoy the time here with your studies! ”

# Want to be building a better work- and business life?

EY offers career possibilities to students, fresh graduates and experienced professionals giving you solutions and insights with an account check, consultation, tax services, company administrations and business jurisprudence.

# Kopo's Greetings

*Howdy!*

TTO's education policies representative is this year Joonas Paano. That's me. I myself study the IB-degree, but in TTO I represent all the business students in our school.

When starting school, all the education based practicalities come to light. The channels for feedback and the practicalities and principles like exam retakes and so much more.

TAMK is a great place to study and here things tend to get sorted. But everything doesn't always go as planned.

What if you come across issues with the course plan or with the teacher, is there anything to be done? Can anyone fight for students and be on your side, maybe a humble and level worker? Of course there is and of course they can!

The primary aim of Tampereen Tradenomiopiskelijat ry is the benefit tracking of our students.

When the student faces troubles or comes up with questions regarding their studies, we'll always be ready to assist.

In TTO, this is the area of responsibility of me, the education policy person, but we all fight for our students' rights as one. If the conversation doesn't lead to any results and the common ground is in fact unable to reach, I can go at the issue and represent a student.

“ Can anyone fight for students?  
Of course they can! ”

As a promoter of interests, I work closely in cooperation with the business course plans with teachers and the education representatives. This allows the operations to move forward there, where the potential problems are hiding.

So, if you happen to face any education political issues that you're needing help or advice for, please don't hesitate to contact me.

I'm wishing everyone a great autumn!

Terveisin,

*Joonas*  
*kopo@ttory.fi*

# Heimo - A Story

I got together for an interview with the customer relationship manager Eetu Kamppuri from the young company Heimo Films. Eetu has graduated from Pro Academy and started a company with the inspiration he got from there.

**Me:** Start by telling a bit about you and your company. What's your role in Heimo Films?

**Eetu:** We all work in all roles flexibly in our firm. But my main role is being the customer relationship manager (CRM). I take care of the already existing customer relations and handle a lot of the sales. I also take part in making productions.

**Me:** What sparked your interest in entrepreneurship?

**Eetu:** My dad has always been an entrepreneur and in that sense it did spark my interest. I also see myself as a more of a doer personality, so I wanted something practical I could do concretely. I wasn't a fan of sitting in a class and studying.

We read a lot of books and the theories are taken into practice this way.

**Me:** How long has the business been running?

**Eetu:** We've officially been in business for 8 months now. We came up with the Heimo Films brand around a year ago through our work in Pro Academy.

**Me:** How has having been in Pro Academy reflected to Heimo?

**Eetu:** When I went to Pro Academy, I didn't really know what I wanted from it or what I could get from it. But the biggest thing has definitely been emphasizing it to honest and direct teamwork, the power of dialogue and operating openly.

**Me:** How did it all come to be?

**Eetu:** First we started shooting videos for fun with our friend's camera. Then it really took off and started to get demand. We began building our knowledge by just shooting more and more and during the last spring semester, we agreed collectively to continue this after our studies.

**Me:** How many employees does Heimo have?

**Eetu:** We are five in total and have two trainees. We have all graduated from Pro Academy's Entrepreneurship and team leadership degree.

**Me:** What are your company's values?

**Eetu:** A really major thing for us is that the customer feels happy and comfortable while working with us from the very beginning. I don't want to say 'from beginning 'til the end' because we want to develop longlasting relationships and network with all kinds of people.

Our logo has a bonfire on it and the word Heimo. Heimo refers to doing things together and working as one. The bonfire symbolizes growth. We partner with growing companies who also have that mentality. And we want to grow the scene even bigger and do it collectively. We don't do things seriously, we do them properly. We don't want to ease on quality but want to assure that the customer is always content. We want to stand out and stay really direct about our ideas and thoughts within our company, internally and externally.

**Me:** What was your experience like in Pro?

**Eetu:** It always felt safe to speak out about anything. One thing I also learned is that you can always learn different skills but what really matters in teamwork is, what kind of traits do you utilize in it and how you make the diverse team benefit from everyone's unique differences.

**Me:** What advice would you give for those new students who are considering applying for Pro Academy?

**Eetu:** I think if you're considering the Academy as an option, the biggest thing would be to just go for it. Don't let your doubts hold you back. And don't keep yourself from applying if it's only because you don't quite know what your thing is yet. Don't be afraid of the amount of responsibility, when you really love what you do, it will keep you going and you'll do it gladly.

**Me:** And how about those who are hoping to start their own business someday but aren't sure whether or not it's for them?

**Eetu:** My friend who graduated from Pro Academy once told me that first you go into it losing yourself until you find yourself. You don't have to already know what you want or what's for you before you go into it. It'll come to you along the way.

**Me:** Why would someone choose Pro Academy?

**Eetu:** Pro Academy has amazing opportunities to gain connections and people in your life who will know how to help you even after your journey there. It's super good for your business life in the future. I definitely want to encourage you to network and connect.

After Pro Academy I really feel like I've found myself. Before I never got a hold of my true self. I was just used to the picture that societal norms have painted for young men.

**Me:** Would you say you found the right industry for you?

**Eetu:** 4,5 years ago when I got into Pro, I had no idea whatsoever, that I would be starting a B2B video production company. But when you really find the right people around you and find something interesting in it and are excited and open to learn, just wing it. Take the chance. You'll never know what tomorrow brings. Don't think too much in the future and hold back because of needing to stay true to your original plan.

I won't ignore the possibility of getting into something else in the future. But right now this feels like the right path and I'm here for it.

**Me:** What does the future look like for Heimo?

**Eetu:** In the future, we see each other building this company big time. We want to see each other leading and managing our own business and choose a production manager better than us and recruit our own staff. So that we can cater to any need. We are eager to get global at some point as well.

Good luck to all the new business students! Hopefully this gave you some insight and inspiration for the future.

**Eetu Kamppuri, CRM  
Heimo Films**

# Entertainment

*Hi there!*

I'm the Kallionpää Matias. Entertainment as my role and as the entertainment representative my job is to make sure, that during your studies, you'll stay hydrated and balanced with entertainment. I'm Tampere based and born. 20 years of age but I'm walking the footsteps of my blood brother but now in the next generation, so I've got some background in the biz. At school you'll most likely find me from Y-kampus or Solu. Outside of school you can often spot me in parties.

If you've got anything in your mind, you can always come up to me and have a chat. I might not know the answer or give the right advice but I can always give my opinion and help you to the right direction. You can also e-mail me or contact through social media, but I'm not usually the most efficient in answering anywhere that has to do with electronics. But I'll try my best.

There will hopefully be a good amount of parties in the autumn. We all have a strong urge to get back into the normal way of functioning but more importantly we care about your wellbeing. My own goal is to create a safe environment for everyone to be able to enjoy and experience the student events.

Regarding the upcoming events, I would definitely recommend Soppasauna. There's nothing else like it anywhere and that is quite a positive thing. The tickets to all the fall events go in a blink of an eye, so be sure to keep your eyes open for those!

If anyone's still thirsty before going for our winterbreak, the reclamations can be sent my way. We are constantly collecting helpful feedback anyway, so if you have some, or if it comes to you later, just let us know.

See you at the parties!

*Entertainment, Matias*

"Let's make Tampere go nuts"

***"Let's make Tampere go nuts"***

"If anyone's still thirsty before going for our winterbreak, the reclamations can be sent my way"

# PISTOT

Hello!

My name is Rosafia and I work as TTO's PISTOT-representative – more specifically, I organize monthly student parties with our amazing PISTOT-crew, each party being better everytime! I'm 24 years of age and this is my third year studying business. The best thing in this whole thing has been getting to know new people, so if you want to hear more about me or the PISTOT parties, you can hit me up when you see me or contact me some other way. The buzz is going on for the whole semester, and there's also a party cruise and a party trip to Malaga, Spain coming! Keep reading, and soon you'll know what's being talked about. Congratulations to everyone for your study place and all the best for autumn. See you at Ilona!

- PISTOT, Rosafia

## PISTOT parties

The PISTOT parties are held monthly at our beloved Social Club with a varying theme. They are organized by us (TTO) as well as the other two student associations TIRO (engineering students) and PIRATE (healthcare students).

Our aim is for all the students to make friends outside of their fellow classmates as well and enhance their social circles by interacting and networking by bringing more motivation and joy into their study experience.

Overalls are key. Not only in student parties but in PISTOT parties. However, in addition to the overalls we advise everyone to follow the dresscode of a certain theme every month. PISTOT has been running for almost 11 years. These are definitely traditional parties in TAMK that you wouldn't want to miss. More information on our PISTOT-Facebook site or feel free to ask your dear tutors.

“ The buzz is going on for the whole semester ”

“ See you at Ilona ! ”

# Party trip

Everyone knows the legendary PISTOT party trip. It's been going around for multiple years now. Ten lucky people will have the chance to spend their summer sunbathing on the hot sand of Malaga, Spain. The PISTOT crew handles the flights, accommodation and they plan super fun activities for all the winners. This trip is definitely worth to take!

Every year, students have had to purchase the PISTOT-party pass that will serve you well during your school year. The pass has all of the year's PISTOT parties marked with the dates. When you enter the party every month, you'll be given a stamp at the entrance. The pass has usually had around 8 parties per year, and in order to be qualified in the raffle, you'll need to participate at least 6-8 parties and have the stamp on the pass for proof.

Social Club has closed its doors so the parties will be organized at Ilona from now on and on the PISTOT-party cruise in December. The pass can be returned during the last party of the spring and if there are enough stamps, you'll be able to join amazing raffle. Beware, that the passes are sold out quickly. For more information, Check the PISTOT Facebook site.

## What happens now?

During all the previous 8 years that the PISTOT party trip has been organized, the world wasn't going through a global pandemic. Considering all the restrictions and the safety precautions, it's clear that we cannot organize such a trip this far from Finland and this close to the infectious zone.

We'll be trying to find a solution for making an excursion happen, maybe within Finland or in the most nearest Nordic countries.

Right now, it's not even guaranteed that all the parties will be taking place. But the PISTOT crew will be updating their social media channels in realtime so be sure to give those a follow!

Stay tuned for the next PISTOT party announcement. If all goes well, it'll be here sooner than you expect!

# TTO, TIRO & PIRATE

The PISTOT student parties are organized with a different theme every month, now for the first time at Ilona. Get your ticket early, dress up for the theme and enjoy a night full of student prices; all night, for you. Check out the PISTOT social media for all the info regarding the parties.

# FALL EVENTS

## THE BBA BAPTISM

A tradition forwarded in the spirit of the ancient Phoenicians, is organized annually to all the new business students by TTO ry. All the students of each business degree team up wearing a matching adventure costume to win. The teams participate in playful battles and swear the sacred vow of the business students' brotherhood which ends the baptism ritual. It follows with a patch as a memory and a symbol of becoming a true BBA student of TAMK.

## HERVANNAN HUM\*LA HYPPELY

One of the most legendary events organized by TTO is the "HHH" also known as Hervannan Hum\*la Hyppely. It is a must for a new student to experience and introduces you well to the lifestyle. Attracting nearly seven hundred excited students, the event takes its participants for a hell of a ride in the most talked about suburb of Tampere. This event known to make memories. According to the rules, each participant has to collect as many stamps on their pass as possible within the given timeframe. The stamps will be given out from the bars when completed a task. You will be awarded with a patch symbolizing the greatness of your achievement.

## SOPPASAUNA

TTO's proud to present the long serving spectacle. Completed in pairs, you have just one goal: Drink a case of beer within a 3 hours without ever letting go of the case. This is a fun competition, You won't be thirsty for a while after this. Only a handful of competing pairs are selected every year, making the 'academic degree' even more legendary. The winning pair is awarded with a wooden ladle with the execution time written on it.

## FRESHMAN OLYMPICS

The Freshman Olympics have been around for six years now. You play in teams and compete against others while still enjoying yourself and the beautiful views in Eteläpuisto. The day is filled with sunshine and fun activities. The team with the most points will win a prize at the end. If you're wishing to drink alcohol, we kindly advice you to bring your own.

# SPRING EVENTS

## SITTING

“A student sitting in Finland is usually a dinner had at a pub room or a banquet hall. In academic environments, some of the tradition is carried on even after one is no longer a student.” - Wikipedia

Sittings are a big part of the university and university of applied sciences study experience. You buy a ticket which includes a meal and a few beverages (usually alcoholic but based on your preferences). Depending on the dress code, some sittings like the Pre-christmas party is more fancy and some are super casual. All sittings include traditional sitting songs and rules you'll need to follow or else you will be playfully punished.

## KALEVAN K\*NNI KIERROS

In the spring of 2015, a new event was born inspired from our legendary Hervannan Hum\*la Hyppely that is centered in the region of Hervanta. Kalevan K\*nni Kierros is of course locat-ed in Kaleva. The main agenda stays the same. Going around the pubs of Kaleva and collecting stamps. Because it's so fun, we need to have it during both semesters!

Badger is the face of both events and the king who's footsteps we follow. This can lead to us finding gold (a Jallu paradise). If you couldn't get tickets for our beloved HHH, or forgot how you got home, OR want to succeed even better, there's a chance in the spring to participate again with your friends. Or you'll find your best mates throughout the way!

# Culture

Greetings! You can call me Nita. I'm the culture and leisure representative of the model 2020. First of all a big congratulations for your study place and welcome to Manshattan, the student city's Mecca, Hopefully you'll get the most amazing things possible out of this experience with the help our help.

Many often have an idea that in your free time students run to classes from parties and then back to your draft beer. But the student life is way more than that. It's a lot more than just partying until sunrise. Next, i'll give you a little taste of what it can potentially be.

My job is to build especially the business student identity and reassure that there are a number of optional events/opportunities and trips where alcohol is not in the main role.

As a culture and leisure representative I have somewhat of a free hand to execute different kinds of activities the way I want to. Here to mention a few: firstly, one of the biggest events of the year called Tradenologia. The Kyykkä world championship, Valentine's day, stand-up gigs, theater, skiing trips, events together with university students as well as the best way to end the year, the Pre-christmas party.

I'm already really looking forward to meeting all of you. And remember, you can always exchange words with us! :)

With love,

*Nita Altun*

*Culture and leisure representative*

## FIRST OF MAY

TTO, Tiro, Pirate and many other different associations and clubs organize different checkpoints in Koskipuisto. There will be small activities and you'll be enjoying the essence of the first of May, in the student style.

## PRE-CHRISTMAS PARTY

TTO opens the winter season and ends the autumn semester by arranging a christmas party with a fancier touch, if you will. This spectacle will be held with similar rules to a sittning. Wear your best, put on a smile and throw it back to the good ol' days while singing the drunken student lullabies and eating your tummy full! \_\_\_\_

## KYYKKÄ WORLD CHAMPIONSHIP

There are qualifications for joining Kyykkä. They are organized by other associations. On the main day, it's time to compete. If you win, you'll be announced the best team of the qualifications. You'll also get the best places and prices for the Academic Kyykkä World Championship. No stress, it's all fun and games! It'll definitely be a fun activity to experience with friends or compete until you win. The spots are limited, but participating is completely free of charge. We want to motivate students to keep doing sports and activities with each other and we provide snacks as well. Hmm, a cheeky ticket might land on someone who's a newbie to this world, is that going to be you?

## SKI TRIP

Partnering with TIRO ry, we arrange a superb skiing opportunity for you and your pals which is really student-friendly. Pack your bags, grab a pal to go and make your way to the beautiful white snowy hills not too far from Lapland! We offer you both bus rides there and back including the skiing ticket and the price depending on whether or not you'll need any necessary skiing gear which you can also rent through us affordably. This one you can't miss. And guess what's even more awesome?

You can go with anyone as the trip is open for anyone even outside of TIRO and TTO. Now put on your helmet and get ready for the ride!

Student overalls are something you will get extremely familiar with. You'll get introduced to them soon enough. Overalls are an essential in universities and universities of applied sciences especially in Finland. They are something you will wear with pride. (This can of course be debatable in the morning after the student party night when you find yourself wearing the same overalls in class, but don't worry, you won't be alone though). Your overalls bind you to TAMK, they will tell you and your mates from your school and other schools what you study, what study year you are in and what's your degree. It also shows, how many achievements, also known as patches, you have managed to sew on these overalls. It will become your masterpiece and full of memories when you graduate.

You will be given different patches for different achievements and different events. You have already been handed a few from our events. You can also collect them by going into events as well as being active and earning them. There are also groups in Facebook and our beloved Solu desk where they sell them. Show off your sewing (or glueing) skills and customize the garment to represent you!

### How to wear the overalls?

So first, put them on like you'd be wearing pants. Then close a few buttons/the zipper and grab the sleeves. Tie a not with them as shown in the first photo from the front.

If the pant leg is too long, you can either: roll it; tighten it with an elastic band; sew it or cut it if you will. Whatever feels the most comfortable for you and/or visually pleasing. If it feels too loose on you, put a belt around it.

When you've figured those out, you or your friend will check if the sign with your degree written on it, is straightened up and showing nicely from the back.

Students also get bottle openers, key-chains, beads, lei garlands and event passes and hang them on the overalls.

# Ohoy, Freshman!

You have officially found your best buddy until graduation.

Who am I, you might wonder.

My name's Badger! I am the mascot of TTO ry.

My favorite drink is Jallu and I might look a bit crazy,  
but you'll get used to it.

I may not speak much but I'm always around.

Never hesitate to come give a hug or take a photo with me. You'll  
most likely find me next to a Jallu bottle and at all the TTO events!

**Tampereen Tradenomiopiskelijat ry**

# Our Tutor Representative and contact person says hi!

*Hey, new business students!*

Welcome to TAMK, you are in good hands!

When starting your studies at TAMK this autumn you're gonna get all the needed info from your tutors and the rest of the school staff. The tutors will be working together with the starting groups all throughout the first year, emphasizing the introductions and familiarizations of the first weeks.

This board period I'll be working as the tutor and member representative of TTO. As a business student you get to join our student union that offers excellent benefits for its members. Joining to be a member happens the easiest through the overall order process, and you'll hear a lot more about your member benefits during your first weeks.

In addition to spreading the beautiful message of our nationwide union, we also manage the promotion of interests of all TAMK's business students, and organize events. This autumn we'll still be living uncertain times, and we will partially have to also adjust to communicate remotely within our work. The most important thing for us after all, is that our members are comfortable and feel good studying at TAMK!

I also work as the contact person within TAMK's business students regarding possible harassment or anyother kind of mishaps happening withing student relations at school and especially at our events. You can always be in touch with me if you ever feel out of place or need someone to share your thoughts with.

Congratulations for your study spot and welcome, see you at campus, events and hopefully later as a tutor!

*-Waltteri Kolkka  
Tutoring & member representative*

“ Welcome to TAMK,  
you are in good  
hands! ”

“ The most important  
thing for us after all,  
is that our members  
are comfortable and  
feel good studying at  
TAMK! ”

# BOARD 2020

A beautiful bunch with 13 souls with a different super power. They all look after your rights and the benefits of everything BBA; entertainment, nonetheless. You'll find us from our office, Solu and from all PISTOT-parties. Explore the following to get introduced to our 2020 board and their roles. This year you'll be hearing about their hilarious drunken survival stories, life mottos, pro life hacks and slogans from your dearest TTO elves.

## Jasmiina Ronkainen, Chairperson

The chairperson is responsible for keeping order within the board and making sure everything is being handled and flowing smoothly. She handles the legal regulations regarding our meetings, operations and activities. Gathers the board for meetings and plans them.

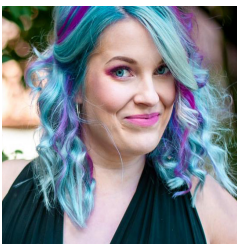

*Motto: "it could've gone shittier"*

## Joonas Salojärvi, Vice-chairperson

The vice-chairperson takes the lead when the chairperson is not present and could potentially do their tasks if she is not able to. He takes care of the functionality of the board together with the chairperson.

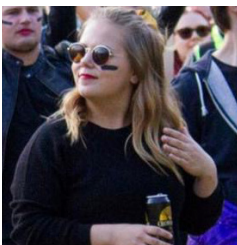

*"You won't get drunk from ten cheetahs"*

## Sofia Kähkölä, Secretary

The secretary writes and keeps track of the meeting minutes and notifies of meetings and the board's duties. She keeps records and prepares documents. She also maintains the membership register.

*"What's lost in height, is added to the ass"*

## Moona Lehtinen, Finance

The finance secretary deals with the financial status, operations, estimates and accounting for the board. She plans and suggests and the chairperson decides if the decision comes to reality.

*"Drunken story would be from HHH after which you open your eyes with no clue where you are then you can say it was a successful trip"*

## Claudia Kinnarinen, Company cooperation

Company cooperation is responsible for the partnerships between companies and our business contacts. She collects the sponsors and holds the agreements for our overalls and helps companies with recruitment effort like the Portti fair or Job Market.

*"A pro tip for student parties, when you start to feel sick: throw up in a pint."*

## Joonas Paano, Education policies

The representative of education policies keeps track of course implementations and is in active contact with teachers and handles BBA students' wellbeing regarding their studies.

*"I once threw up with a non-stop automatic while running on the bags of 5 different girls at a house party."*

### Jack Davies, Foreign relations

The foreign relations representative organizes an excursion internationally and smaller ones within Finland. He is in close contact with our IB students and foreign relations.

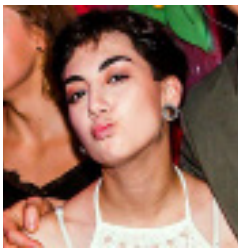

*"Alcohol: a drink that makes bad decisions look good."*

### Walteri Kolkka, Tutoring & members

Our tutoring and members representative focuses on tutor activities, trains them from a student association perspective and makes sure they are up to date and confident in their roles. He also organizes smaller events for our tutors.

*"Of course I made it home from PISTOT, these overalls are just a fashion statement"*

### Jasmin Mora, Media

The media representative coordinates the information flow and event promotions in all of TTO's social media platforms. She's also the writer and editor-in-chief of the Provisio-magazine. She sends out monthly newsletters and photographs in events.

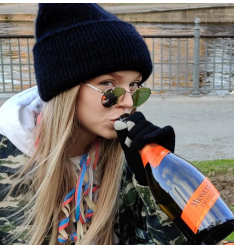

*"Hey I'm there in a bit. \*5 days later\* F\*ck."*

### Matias Kallionpää, Entertainment

The entertainment representative organizes most of our events, and is focused on our bigger alcoholic events. He also cooperates and signs agreements with our partnering companies. He also takes care of sponsorships.

*Motto: "Why does it matter, when it doesn't matter at all"*

### Rosafii Kananaja, PISTOT

Our PISTOT representative organizes all PISTOT parties and the party cruise together with Tiro ry and Pirate ry. She's in contact with the head of night clubs and agrees on how and when to organize our monthly event. The maintenance of the PISTOT social media is included.

*"Would you like 16 or 24cl? - Put the whole bottle."*

### Nita Altun, Culture & leisure

The responsibility of our culture and leisure representative is to plan and organize non-alcoholic events and trips for our members and makes reservations. She also coordinates our business image and seeks more attraction towards the events.

*"but i wasn't even drunk"*

### Ollimatti Aikio, Webmaster

Our Webmaster's role includes a big part in maintaining and updating our website (www.ttory.fi), designing and publishing it. He takes care of the e-mail lists and handles any IT aspects.

*"I fell asleep in the bus after Soppasauna with two backpacks. I woke up at the last stop and ran 8km home, without a jacket in -8 degrees celcius at 3AM"*

**STUDENTS OF BUSINESS  
AND TECHNOLOGY.**

**NO  
LIMITS.**
